

Contacting the SFTR POA Board of Directors

Whether you are a long-term resident or relatively new to SFTR we realize that there will be the occasion when you wish to bring an issue to or ask a question of one or more of our committees. On the SFTR web page we have listed contact information for the Board of Directors, each of our committees, and those local county and state offices which we have over time identified to be of value to property and homeowners. These can be located by going to the SFTR web page at <https://santafetrailranch.com> . Located on the header of the home page you will find:

ABOUT COMMUNITY ARTICLES POA & METRO CONTACT

Clicking on CONTACT you will find e-mail and or telephone contact information for each committee as well as useful county and state offices plus others.

How about the neighborhood social media tool Next-Door? Well, how about it 😊? For our new neighbors and as a reminder to our longer standing owners, when SFTR transitioned to the new web page in 2020 we chose not to incorporate the discussion forum from the previous web page. This had proved to be a labor-intensive effort updating user access and reviewing content. The Board, following a recommendation from the Communications Committee, opted to give Next-Door a try as a way to keep lines of communication open. To be quite honest, this social media tool proved to have many of the same challenges as do other well-known social media platforms.

That said, the Board elected to distance itself from any leadership, management, or use of Next-Door for official SFTR business. You may see periodic posts concerning road conditions, water outages, or meeting reminders; please accept these as neighborly heads-ups. No one on the Board functions as a “Lead” or any other Next-Door position which could influence the display of individual posts.

Each and every one of you is encouraged to log into the website at <https://santafetrailranch.com> and raise your questions or concerns to the appropriate to the board or applicable committee by using the contact information page on the SFTR web page:
